Secu-Tool is STS product line for surgical instruments such as scissors, forceps, clamps, spoons and needle holders. Made of strong stainless surgical steel, our instruments are manufactured with a high level of strength and subjected to very strict quality analysis. Moreover every instrument of the Secu-Tool-Family is CE marked and compliant with all the required standard quality.

The red color coding means that the instruments are clearly marked for single use and are quickly to hand.

Product packaging states clearly all mandatory and necessary information.
